Enterprise Digital & Software Development

COMMERCIAL PROPOSAL
Ref: SC-PROP-2026-ADTECH
Date: November 10, 2026
Validity: 30 Days

PRODUCT ARCHITECTURE & COMMERCIAL PROPOSAL

On-Demand Out-of-Home (OOH) & Digital Signage AdTech Marketplace

Advertiser Portal + Outpost Host Portal + Transit Syndicate Desk + Master Operations Console (Web & Mobile PWA)

1. EXECUTIVE SUMMARY & OVERVIEW

The platform is an on-demand ad space marketplace bridging two primary market participants:

1. **Advertisers & Vendors:** Businesses seeking to place promotional campaigns across physical locations (hotel lobbies, shopping malls, corporate offices, restaurants) and mobile transit corridors (commercial vehicles, taxis, buses).
2. **Outpost Hosts:** Property managers, business owners, and commercial vehicle operators looking to monetize their existing TV screens, LED boards, and vehicle exterior surfaces.

The system provides an automated booking engine, built-in AI creative design tools, and a multi-stage proof-of-placement verification workflow to protect campaign investments.

2. FUNCTIONAL SYSTEM SCOPE

Module 1: Advertiser / Vendor Portal

- **Outpost Marketplace:** Search and filter ad spaces by city, corridor, venue type (Hotels, Malls, Banks, Gyms), and vehicle routes.
- **AI Creative Studio:** Input offer details and themes to automatically generate professional display flyers, or upload custom video clips.
- **Campaign Escrow Checkout:** Duration selection (e.g. 7, 30 days) with funds held in platform escrow until placement is verified.
- **Proof-of-Placement Feed:** Real-time dashboard showing photo/video proof submitted by outpost owners.

Module 2: Outpost Host Portal

- **Space Listing:** Register screen displays (Smart TV, LED billboard) or vehicle assets (saloon cars, minibuses, commercial taxis).
- **Campaign Acceptance:** Receive booking alerts with approved media files and download for Smart TV playback.
- **Proof-of-Play Submission:** Mandatory upload of photo/video evidence showing the ad active to release escrow payouts.
- **Earnings Wallet:** Track campaign earnings with automated withdrawals to local bank accounts.

Module 3: Transit Wrap Syndicate

- **Branding Dispatch:** Automated dispatch desk for professional vinyl installation agents to coordinate vehicle drop-off and material application.
- **Installation Sign-Off:** Field technician and driver dual sign-off with multi-angle vehicle inspection photos.

Module 4: Master Admin Operations

- **Listing Verification:** Review and approve new venues, screens, and vehicles before public listing.
- **Ad Content Moderation:** Review queue to filter out prohibited materials before media reaches host screens.
- **Commission Settlement:** Configure platform commission splits (e.g., 15% to 25%), manage payout batches, and handle dispute resolutions.

3. TECHNICAL ARCHITECTURE & STACK

LAYER	TECHNOLOGY	CORE PURPOSE
Client & Host Portal	Next.js 15 (React), Tailwind CSS	Responsive Progressive Web App (PWA) installable on mobile devices and desktop computers.
Backend Workflows	Node.js (NestJS) on Railway	Booking state machines, proof verification queues, and role-based operational permissions.
Database & Storage	PostgreSQL + Cloudflare R2	PostgreSQL for transactional ledgers combined with Cloudflare R2 for zero-egress video and high-resolution ad storage.
AI Image Generation	OpenAI Image API Engine	Automated generation of professional advertising flyers from text prompts and business profiles.

4. ESTIMATED THIRD-PARTY OPERATIONAL COSTS

INFRASTRUCTURE / SERVICE	PURPOSE	ESTIMATED INITIAL COST
Cloud Server & DB (Railway)	Runs marketplace API, database, and tasks	**$10.00 - $20.00 / month**
Media Storage (Cloudflare R2)	High-resolution image/video ad storage	**Free tier / ~$5.00 / month**
