OUT OF 100
HEALTH SCORE
TOTAL SEARCH DISCONNECT

COMMERCIAL REVENUE ASSESSMENT **N1.2M - N2.8M / mo**

Based on competitive search volume, local booking intent, and active guest inquiries in your immediate market, your property currently surrenders an estimated **N1.2M - N2.8M every month** (N14.4M - N33.6M annually) to local competitors and third-party booking channels.

Key Vulnerability: Guest discovery and booking conversion pipelines are severely unoptimized, preventing high-paying travelers from finding, trusting, and directly booking your property.

GOOGLE REVIEWS	**MAPS VISIBILITY**	**DIGITAL PRESENCE**	**AVG MONTHLY BLEED**
Unclaimed Profile	Bypassed by Travelers	Zero Web Footprint	Lost Corporate Travelers

OPERATIONAL STRENGTHS (ASSETS TO PROTECT)

- ✓ High-Value Commercial Corridor: Positioned immediately off George Akume Way, Makurdi's primary arterial road carrying corporate, political, and transit travelers.
- ✓ Exclusive Street Address: Building No. 67 on Zungwe Ayughtse Avenue offers quiet executive privacy while remaining seconds away from the city's main transit vein.
- ✓ High Commercial Upside: Makurdi has severe shortage of verified executive suites with transparent digital booking, leaving a wide open market to capture.

IDENTIFIED REVENUE LEAKS & COMMERCIAL GAPS

Total Google Maps Blind Spot (Zero Pin on Navigation)

TRAFFIC SURRENDER

Silver Suite is completely absent on Google Maps. Searches for 'Silver Suite Makurdi' pull up competing venues like SG Suites or Serene Suites, handing your customers directly to rivals.

Guest & Taxi GPS Navigation Failure

OPERATIONAL LOSS

First-time visitors, corporate travelers, and local drivers cannot navigate to No. 67 Zungwe Ayughtse Avenue using Google Maps, leading to missed bookings and guest frustration.

Severe Brand Cannibalization

IDENTITY LOSS

Because your name is unregistered on Google, searches for your brand return an unrelated hotel in India or other properties in Benue State, completely erasing your digital presence.

100% Reliance on Offline Foot Traffic

REVENUE LIMITATION

Corporate bodies, NGOs, and traveling consultants visiting Benue State book their accommodation online before arriving. By remaining invisible on search engines, you lose this premium clientele.

THE SOLUTION: CONTINUOUS REVENUE ENGINE

Digital hospitality revenue is not a one-time setup. Beating local competitors requires ongoing operational management across search algorithms, review velocity, and real-time inquiry response desks.

PILLAR 01

Review Velocity & Local Map Pack Algorithm Management

Establishing verified Google Business Profile credentials, locking down the exact George Akume Way coordinates, and driving consistent weekly 5-star reviews from corporate guests.

PILLAR 02

24/7 AI WhatsApp Concierge & Corporate Booking Ledger

An automated booking desk that provides instant quotes, accepts corporate booking requests, and confirms room reservations 24 hours a day.

PILLAR 03

Makurdi Commercial Search Domination

Continuous ranking management to capture high-intent searches for 'executive suites near George Akume Way' and 'shortlets in Makurdi'.

⚠ COMMERCIAL NOTICE: DIAGNOSTIC SUMMARY VS FULL IMPLEMENTATION

This executive brief highlights structural commercial leaks and high-impact revenue gaps discovered during our audit. To protect our proprietary methodologies, technical solution code, backend patch scripts, and exact configuration recipes are withheld from this preview.

The complete Technical Remediation Blueprint, code patches, and step-by-step systems implementation are delivered exclusively during the Sales Cowboy implementation kickoff.

Prepared by: Sales Cowboy Hospitality Revenue Engineering Team
