CONFIDENTIAL AUDIT

REF: AUD-GLV-2026-008
DATE: November 06, 2026
TARGET: Glover Apartments

SUBJECT PROPERTY DIAGNOSTIC

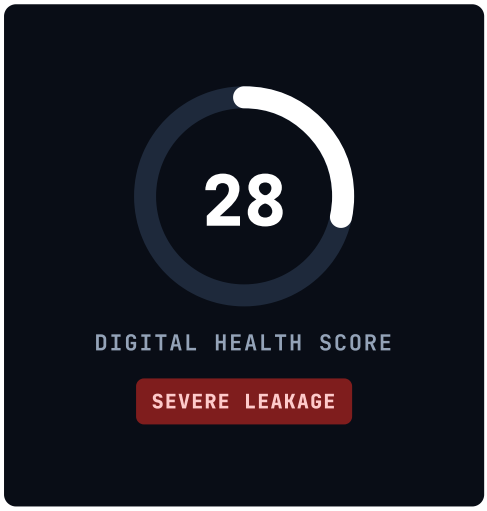

Glover Apartments

Ogudu, Lagos Mainland, Nigeria • Premium Serviced Apartments

SEVERE FUNNEL FRICTION

LAGOS MAINLAND SHORTLET MARKET

1. EXECUTIVE DIAGNOSTIC SCORECARD

INFRASTRUCTURE HEALTH BENCHMARK

Est. Loss: ₦1,800,000 - ₦3,600,000 / mo

Direct Booking Website Flow	25 / 100 (Exhausting Form Steps)
Live Room Availability Tracker	0 / 100 (Blind Calendar)
Google Business Profile (GBP)	15 / 100 (1 Single Review)
Local Pack SEO (Ogudu vs. Ikoyi)	20 / 100 (Name Cannibalized)
Post-Stay Review Follow-Up System	0 / 100 (Zero Automation)

70%+
FORM ABANDONMENT
Too many booking steps tire mobile guests out before paying.

0
LIVE CALENDAR SYNC
Visitors cannot see open dates; forced to call or WhatsApp.

1
GOOGLE REVIEW
Single 5.0 rating looks like a self-review; zero trust velocity.

100%
IKOYI NAME BLEED
Google shows Glover Rd, Ikoyi results instead of your Ogudu units.

2. STRENGTHS VS. WHAT YOU ARE DOING WRONG

YOUR GENUINE ASSETS & STRENGTHS

High-Quality Professional Photography:
Crisp, well-lit interior and exterior shots already produced. The property visually looks premium.

Strategic Mainland Location:
Situated in Ogudu with rapid access to Ikeja, Maryland, and Third Mainland Bridge.

OTA Presence Established:
Already indexed on Agoda, Skyscanner, and Trip.com with consistent property metadata.

Existing Domain & Brand Equity:
You already possess an owned domain, saving upfront technical turnaround time.

CRITICAL MISTAKES COSTING YOU BOOKINGS

Exhausting Multi-Step Website Booking:
Visitors are subjected to multiple input forms and screens. High friction leads to 70%+ mid-checkout abandonment.

No Real-Time Room Availability Calendar:
Guests cannot see open vs. booked dates. They must guess or leave the site to call your staff.

The 1-Review "Ghost" Trap on Google Maps:
1 single review looks fake to corporate travelers. Without 15+ reviews, Google Maps buries you below rivals.

Keyword Cannibalisation by Glover Road, Ikoyi:
Searching "Glover Apartments" displays Island luxury flats. You lack the local Ogudu schema to win mainland searches.

Zero Automated Post-Stay Review System:
Staff never trigger automated review reminders after check-out, permanently stunting your social proof.

3. LIVE SEARCH SIMULATION (WHAT GUESTS SEE TODAY)

GOOGLE: "Glover Apartments" OR "Shortlets in Ogudu Lagos"

Glover Road Luxury Serviced Apartments • Ikoyi, Lagos — WRONG ISLAND LOCATION

https://ikoyiluxury.com.ng/glover-road

★★★★★ 4.8 Rating (86 Reviews) • High domain authority intercepts your brand searches. Guests looking for mainland Ogudu get confused and assume you are an Island-priced luxury development.

Top Rated Ogudu & Maryland Serviced Apartments • Google 3-Pack — LOCAL PACK COMPETITOR

https://google.com/maps/search/shortlets+ogudu

★★★★☆ 4.6 Rating (42 Reviews) • Active room photos and instant booking links. Reclaims 60%+ of mainland corporate travelers while Glover Apartments is pushed down.

Glover Apartments (Your Current Listing - Ogudu) — BURIED & SUSPECT

https://gloverapartments.com.ng

★☆☆☆☆ **Only 1 Review • Weak Local Schema:** Google algorithm penalizes dormant review profiles. Travelers assume the property is dormant or unreliable and choose competitor #2.

4. THE GLOVER GUEST DROP-OFF FUNNEL

Stage 1: 100 High-Intent Searchers ("Shortlets in Ogudu" / "Glover Apartments") — -52 Lost to Ikoyi Bleed & 1-Review Trap

100 Searchers

Stage 2: 48 Reach Your Website Booking Form — -26 Abandon Due to Multi-Step Friction & Blind Availability

48 Visitors

Stage 3: 22 Attempt Manual WhatsApp / Phone Inquiries — -14 Lost to Delayed Responses & Friction

22 Inquiries

Stage 4: Confirmed Check-Ins at Glover Apartments — Net Conversion Rate: 8%

8 Bookings

5. CURRENT FRICTION VS. SALES COWBOY INFRASTRUCTURE

CHANNEL	CURRENT STATE AT GLOVER APARTMENTS	SALES COWBOY PROPRIETARY SYSTEM
Website Booking Flow	Exhausting multi-step form with tedious input fields that tires visitors out.	2-Step Frictionless Mobile Checkout with instant Paystack/Flutterwave settlement.
Room Availability	Blind calendar. Guests cannot verify open dates without manual staff calls.	Dynamic Real-Time Room Availability Calendar Sync. 100% self-serve booking.
Google Maps Profile	1 review (5.0 stars). Zero review velocity kills local search rank.	Google 3-Pack Dominance with weekly geo-tagged photos and active review velocity.
Review Generation	Completely manual. No post-stay follow-up triggers after check-out.	Automated WhatsApp Review Bot: Fires 2 hours post-checkout with 1-click Google review link.
Local Search Signals	Cannibalized by Glover Road, Ikoyi. Ineligible for Ogudu/Maryland map packs.	Mainland Schema & Local Citation Push: Ranks #1 for Ogudu shortlet searches.

6. PROPRIETARY SALES COWBOY TURNAROUND ARCHITECTURE

PILLAR 01

Streamlined Booking Site + Live Availability Engine

Replaces your exhausting multi-page forms with a high-converting, 2-step booking engine.

+ Dynamic real-time room availability calendar

Custom-wired directly to your reservation desk to drive 5-star Google social proof.

+ Automated WhatsApp review prompt 2h post-checkout
+ Replies to guest DMs in 3 seconds flat 24/7
+ Sends direct booking links and answers FAQs

PILLAR 03

Google Business Profile (GBP) Management

Own the Top 3 Google Maps pack for Ogudu and end the Ikoyi search cannibalization.

+ Weekly GBP posts & geo-tagged room photos
+ Local Ogudu and Maryland citation network push
+ Keyword-rich Google review responses for SEO

PROJECTED MONTHLY REVENUE UPLIFT

+₦1,800,000 - ₦3,600,000

TIMELINE TO DOMINANCE

4 WEEKS

Captured through friction-free direct bookings, live calendars, and Google 3-Pack rank.

WEEK 01

Booking Engine Build

Deploy 2-step mobile checkout with real-time room availability calendar.

WEEK 02

WhatsApp Bot Integration

Wire 24/7 AI concierge and automated post-stay review reminders.

WEEK 03

Google Maps & SEO Push

Geo-tag imagery, build local Ogudu citations, and stop Ikoyi name bleed.

WEEK 04

Review Velocity Engine

Launch automated review system, room QR kits, and weekly GBP management.
