Not a Brochure: A High-Conversion Client Acquisition Engine

Purpose of This Deck: Directly answers every technical, UX, security, SEO, and commercial question raised by Ken-Saleem Consulting Limited while presenting our simplified **₦350,000 development-only commercial offer** (with third-party hosting and domain accounts itemized separately under your corporate ownership).

< 1.2s
4G LOAD TARGET
Static/Edge speed across MTN & Airtel 4G with green Google Core Web Vitals.

90 Sec
CONVERSION FUNNEL
Proof, practice clarity, lead qualification gate, Paystack payment & Calendly slot.

100%
DAY-ONE OWNERSHIP
Domain, GitHub repo, CMS, hosting & Figma files sit directly under your credentials.

₦350k
DEV INVESTMENT ONLY
Covers UI/UX, build, CMS, security & launch. Hosting & domain billed direct at cost.

Boardroom Authority Design

Editorial typography, intentional whitespace, and verifiable trust badges tailored for C-suite and HNW buyers rather than noisy agency templates.

Automated Retainer Revenue

Qualified prospects pay consultation retainers via Paystack before unlocking Calendly calendar slots, protecting executive time from unqualified calls.

Search & AI Ready (SEO + GEO)

Full in-CMS SEO controls, JSON-LD corporate schema, and LLM-readable insight summaries for Google, ChatGPT Search, and Perplexity discovery.

Turning High-Net-Worth Visitors Into Paid Retainers (Q1 - Q4)

Questions 1 - 4

Q1 How do you convert HNW visitors within 90 seconds?

- **0-15s (Authority Proof):** Hero states clear advisory positioning, regulatory credentials, and transaction volume advised.
- **15-45s (Outcome Alignment):** Scannable practice areas (Strategy, Regulatory Risk, Capital Restructuring) without generic fluff.
- **45-90s (Gated Qualification):** Primary CTA loads a fast qualification modal (Revenue, Scope, Budget) before checkout and booking.

Q3 & Q4 How do we outclass 500 Lagos firms & structure CTAs?

- **Q3 (Design Psychology):** "Restraint of Authority" with Financial Times / McKinsey editorial grids, real credentials, zero stock clutter.
- **Q4 Primary CTA:** *"Book Advisory Session"* (header + sticky bar).
- **Q4 Secondary CTA:** *"Download Industry Report"* (lead-captured).
- **Q4 Tertiary CTA:** *"Executive WhatsApp Desk"* (pre-filled API routing).

Q2 End-to-End Customer Journey Map (Search to Retainer Settlement)

1. Organic / AI Search Intent → 2. Edge Landing Page (<1.2s) → 3. Practice Area Case Proof → 4. Qualification Audit Gate → 5. Paystack Retainer Payment → 6. Calendly Slot + NDPA Memo

Speed, Design System, Accessibility & Navigation Clarity (Q5 - Q9)

Questions 5 - 9

Q5 What Core Web Vitals & mobile standards do you guarantee?

- **Mobile-First Fluid Engineering:** Built for smartphones first, scaling up seamlessly to executive desktop displays.
- **Contractual Green Metrics:** LCP ≤ `1.2s`, INP ≤ `100ms`, and CLS ≤ `0.05` (zero jarring visual shifts).

Q6 How fast will pages load on Nigerian 4G networks?

- **Target Speed:** Under **1.2 seconds** on MTN & Airtel 4G connections.
- **How We Achieve It:** Next.js Static Generation (SSG/ISR), WebP/AVIF image compression, self-hosted fonts, and Cloudflare Edge caching.

Q7 What color palette, typography & grid system will define the brand?

Editorial Serif Display headings (*Playfair Display / Cinzel*) paired with clean Neo-Grotesque body typography (*Inter*) over a 12-column responsive 8pt grid:

- **Oxford Navy (#0A192F) - Authority**
- **Champagne Gold (#C5A880) - Wealth**
- **Pearl White (#F8F9FA) - Clarity**
- **Slate Charcoal (#1E293B) - Legibility**

Q8 Does the site meet WCAG 2.2 AA accessibility rules?

Yes. Semantic HTML5 markup, ≥ 4.5:1 text contrast ratios, full keyboard tab navigation, screen-reader ARIA labels, and zero intrusive auto-playing audio/video.

Q9 How do you serve both quick visitors and analytical executives?

Dual-spectrum UX: plain-language navigation labels (*"What We Do"*, *"Speak to a Consultant"*) for rapid action, backed by downloadable executive research briefs.

Enterprise Headless Stack & 100% Client Control (Q10 - Q14)

Questions 10 - 14

Q10 Why Headless Next.js 15 + Headless CMS vs WordPress/Webflow?

- **No WordPress Risk:** Eliminates plugin vulnerabilities, SQL hacks, and slow PHP database bottlenecks.
- **No Webflow Lock-in:** Avoids rigid templates, recurring platform taxes, and restricted local payment webhooks.
- **Headless Advantage:** Unmatched edge performance, zero exposed DB, full API extensibility, and 5-year modular scalability.

Q11 & Q12 Who owns accounts, and what is the Uptime SLA & Backup plan?

- **Q11 (100% Ownership):** Domain, hosting, CMS, GitHub repo, and Figma files are registered directly under Ken-Saleem credentials from Day One.
- **Q12 (SLA & Backups):** Hosted across 300+ Cloudflare/Vercel Edge nodes with **99.99% Uptime SLA** + automated daily immutable S3 backups (<15m RTO).

Q13 How are updates deployed safely without risking the live production site?

1. Local Git Branching → 2. Staging URL (staging.ken-saleem.com) → 3. Client QA Approval → 4. Automated Zero-Downtime Push

Q14 Can the platform integrate future CRMs, AI assistants & ERPs?

Yes. Built as a decoupled REST/GraphQL consumer with pre-structured webhook routes ready to connect HubSpot, Zoho CRM, Paystack events, Calendly, and custom AI desks with zero core rewrites.

Hardened Defense, NDPA 2023 Compliance & Email Trust (Q15 - Q18)

Q15 How is the platform protected from cyberattacks?

- Mandatory **SSL/TLS 1.3** encryption with strict HSTS preloading.
- **Cloudflare Enterprise WAF** filtering SQL injections, XSS, and bad bots.
- Automated DDoS absorption and strict rate-limiting on intake forms.

Q16 Does the site comply with NDPA 2023 & GDPR rules?

- Explicit opt-in Cookie Consent banner gating all analytics scripts.
- Comprehensive NDPA 2023 & UK/EU GDPR compliant Privacy Policy.
- Built-in Subject Access Request (SAR) and data erasure submission flow.

Q17 How are consultation notes encrypted & corporate emails delivered?

- Client briefs encrypted in transit (TLS 1.3) and at rest (**AES-256**); restricted purely to authorized Ken-Saleem admins.
- Full **SPF, DKIM, and DMARC** DNS authentication ensuring booking emails land in Microsoft 365 / Google Workspace inboxes, never spam.

Q18 What is the Incident Response & Disaster Recovery plan?

- 24/7 automated uptime alerts notifying administrators of any anomaly.
- **120-Second Rollback:** Instant DNS and Git rollback to immutable static snapshots prevents prolonged downtime.

Owning Google Search & AI Answer Engines (GEO) (Q19 - Q23)

Q19 Can our team manage SEO independently inside the CMS?

- **Global Defaults:** Master sitewide titles, brand descriptions & fallback OpenGraph share cards.
- **Per-Page / Per-Article Editors:** Custom Meta Titles, Descriptions (live character counts), canonical URLs & social cards.
- **Indexing Controls:** Simple `index, follow` vs `noindex` toggles for private VIP briefings.

Q20 How will Ken-Saleem rank in AI search (ChatGPT, Perplexity, Google AI)?

- **Generative Engine Optimization (GEO):** Every research insight opens with clean factual executive abstracts engineered for LLM citation.
- Strong semantic topic entities linking Ken-Saleem directly to corporate strategy, risk, and capital advisory queries.

Q21 JSON-LD Schema Markup

Dynamic structured data injected automatically: `Organization`, `Corporation`, `Person` (CEO/Partners), `ConsultingService`, `FAQPage` & `Article` schemas.

Q22 Instant Search Indexing

Automated XML sitemaps integrated with Google Search Console and Bing Webmaster Tools to index new publications rapidly.

Q23 Malicious AI Scraper Defense

Custom `robots.txt` + Cloudflare Bot Rules allowing Googlebot & Bingbot while blocking unauthorized proprietary content harvesters.

Paystack Payments, Smart Calendly & Lead Qualification (Q24 - Q26)

Questions 24 - 26

Q24 How do Payments, Scheduling & WhatsApp connect?

- **Paystack Checkout:** Direct debit card & bank transfer collection on site.
- **Smart Webhook Unlock:** Payment verification webhook automatically unlocks Calendly time slots (stops unpaid bookings).
- **WhatsApp Business API:** Floating executive desk pre-populates inquiry context for rapid routing.

Q25 How do Analytics & Ad Pixels work legally?

- Integrates Google Analytics 4 (GA4), Search Console, LinkedIn Insight Tag, and Meta Pixel.
- Wrapped in **Google Consent Mode v2** so zero user-tracking cookies fire before visitor opt-in under NDPA/GDPR.

Q26 How do you filter out unqualified leads automatically?

- Intake gate segments inquiries by corporate revenue tier (`<$50k`, `$50k-$250k`, `$250k+`).
- High-ticket prospects route straight to CEO/Partner booking; lower tiers auto-route to executive whitepapers & newsletters.

Automated Retainer Revenue & Calendar Protection Workflow

Development Cost Scope & Milestone Payment Schedule

Question 27

Important Commercial Notice: Total Investment of **₦350,000 (Three Hundred & Fifty Thousand Naira)** covers **Software Design & Engineering Development Cost ONLY**. All third-party hosting, custom domain, CMS, and gateway charges are separate and paid directly to infrastructure providers under your company's accounts (itemized on Slide 10).

BILL OF QUANTITIES (BOQ) - DELIVERABLE SCOPE	STATUS
1. Bespoke Figma UI/UX System (Mobile, Tablet & Desktop)	Included
2. Headless Next.js 15 Frontend (<1.2s Load, Green Core Web Vitals)	Included
