OUT OF 100
HEALTH SCORE
COMMISSION DRAIN & REVIEW RISK

COMMERCIAL REVENUE ASSESSMENT **N2.0M - N4.5M / mo**

Based on competitive search volume, local booking intent, and active guest inquiries in your immediate market, your property currently surrenders an estimated **N2.0M - N4.5M every month** (N24.0M - N54.0M annually) to local competitors and third-party booking channels.

Key Vulnerability: Guest discovery and booking conversion pipelines are severely unoptimized, preventing high-paying travelers from finding, trusting, and directly booking your property.

GOOGLE REVIEWS	**OTA COMMISSION**	**DIRECT WEB BOOKING**	**AVG MONTHLY BLEED**
Highly Fragile Buffer	Lost on Every Stay	Aggregator Controlled	OTA Cuts & Missed Directs

OPERATIONAL STRENGTHS (ASSETS TO PROTECT)

- ✓ Strong Baseline Satisfaction: 4.5 out of 5.0 Google rating with verified guest reviews highlighting spotless cleanliness, modern decor, and comfortable amenities.
- ✓ 24/7 Operational Readiness: Guaranteed round-the-clock power and active front desk services in Kubwa FO1.
- ✓ Active Social Promotion: High-quality video showcases of apartment interiors on Instagram and TikTok targeting short-let clients.

IDENTIFIED REVENUE LEAKS & COMMERCIAL GAPS

Extremely Fragile Review Defense (Only 8 Reviews)

REPUTATION HAZARD

While 4.5 stars is strong, a single malicious or upset 1-star review will instantly pull your overall rating down to 4.1, dropping you out of premium shortlet consideration.

Heavy OTA Commission Bleed (15% to 20% Surrendered)

MARGIN LOSS

Without an owned booking website, Google directs interested guests to Booking.com, Bluepillow, and Agoda. You surrender hundreds of thousands of Naira in commissions each month on rooms you could book directly.

Kubwa FO1 Location Mismatch Risk

GUEST FRICTION

Marketing as 'Abuja Luxury' without setting precise location expectations creates friction. Guests expecting central Maitama or Wuse complain about commute times unless guided properly during pre-booking.

Stagnant Checkout Review Flow

GROWTH STAGNATION

Dozens of satisfied guests check out every month without being prompted to leave a Google review. Without automated post-stay follow-up, your review count remains stuck at 8.

THE SOLUTION: CONTINUOUS REVENUE ENGINE

Digital hospitality revenue is not a one-time setup. Beating local competitors requires ongoing operational management across search algorithms, review velocity, and real-time inquiry response desks.

PILLAR 01

Review Velocity & Local Map Pack Algorithm Management

An automated system that requests 5-star reviews from every departing guest via WhatsApp, builds an unbreakable review buffer in Kubwa FO1, and pushes your ranking above rival apartments.

PILLAR 02

Direct Booking Engine & 24/7 WhatsApp AI Concierge

A streamlined direct reservation desk allowing guests to check room availability and book directly without paying 15% to 20% aggregator commissions.

PILLAR 03

Abuja Satellite Search Authority Management

Ongoing positioning that captures travelers specifically seeking quiet, upscale accommodation in Kubwa and FO1 while setting clear location expectations.

⚠ COMMERCIAL NOTICE: DIAGNOSTIC SUMMARY VS FULL IMPLEMENTATION

This executive brief highlights structural commercial leaks and high-impact revenue gaps discovered during our audit. To protect our proprietary methodologies, technical solution code, backend patch scripts, and exact configuration recipes are withheld from this preview.

The complete Technical Remediation Blueprint, code patches, and step-by-step systems implementation are delivered exclusively during the Sales Cowboy implementation kickoff.

Prepared by: Sales Cowboy Hospitality Revenue Engineering Team
