OUT OF 100

HEALTH SCORE

REPUTATION CRISIS & MAP INVISIBILITY

COMMERCIAL REVENUE ASSESSMENT **N2.2M - N4.8M / mo**

Based on competitive search volume, local booking intent, and active guest inquiries in your immediate market, your property currently surrenders an estimated **N2.2M - N4.8M every month** (N26.4M - N57.6M annually) to local competitors and third-party booking channels.

Key Vulnerability: Guest discovery and booking conversion pipelines are severely unoptimized, preventing high-paying travelers from finding, trusting, and directly booking your property.

3.3	0	N237k	N3.5M
GOOGLE RATING	**LAGOS ISLAND MAP PIN**	**GLITCH OTA PRICING**	**AVG MONTHLY BLEED**
Below 4.0 Filter Cutoff	Branch 2 Invisible	Scraped Placeholder Rate	Lost to Rivals & OTAs

OPERATIONAL STRENGTHS (ASSETS TO PROTECT)

- ✓ Multi-Unit Regional Footprint: Established operations across two high-demand Lagos commercial corridors (rapidly expanding Ibeju-Lekki axis and central Lagos Island business district).
- ✓ Competitive Native Room Rates: Highly affordable baseline pricing (N18,000 to N25,000 per night) that appeals strongly to business travelers, commercial traders, and extended-stay guests.
- ✓ Established Third-Party Syndication: Active indexing across global distribution platforms including Agoda, Traveloka, and Hotels.com.

IDENTIFIED REVENUE LEAKS & COMMERCIAL GAPS

Severe 3.3-Star Google Reputation Crisis at Awoyaya HQ

REPUTATION EMERGENCY

Google Maps automatically filters out properties rated below 4.0 stars when travelers search for recommended hotels in Ibeju-Lekki. Toxic public reviews detailing power and water cuts actively scare away high-paying corporate guests.

Total Map Invisibility of Lagos Island Branch

REVENUE BLIND SPOT

The Alof Street branch has zero Google Business Profile and zero map pin. Commercial traders and corporate visitors around Adeniji and Lagos Island trade districts cannot discover or navigate to this location.

Catastrophic OTA Pricing Desynchronization

PRICE CONFUSION

Due to broken backend channel management, external travel platforms are scraping false placeholder rates as high as N237,000+ per night instead of your actual N18,000 - N25,000 rate. This absurd rate shock scares bookers away instantly.

Misleading Geographic Claims Damaging Search Trust

TRUST PENALTY

The website claims the property is '2.4 km from Lekki Toll Gate' when Awoyaya is over 25 km away. This geographical mismatch creates immediate guest disputes, negative reviews, and search indexing penalties.

Absence of Dedicated Multi-Branch Web Architecture

CROSS-SELL LOSS

The website operates as if only Awoyaya exists. Out-of-town guests searching for lodging near Adeniji or Idumota never discover that Sulerious has rooms available on Lagos Island.

THE SOLUTION: CONTINUOUS REVENUE ENGINE

Digital hospitality revenue is not a one-time setup. Beating local competitors requires ongoing operational management across search algorithms, review velocity, and real-time inquiry response desks.

PILLAR 01

Review Velocity & Local Map Pack Algorithm Management

An ongoing review protection system that intercepts guests at checkout, resolves grievances privately, and systematically routes verified happy guests to Google to dilute the toxic 3.3 score and restore 4.0+ visibility.

PILLAR 02

Multi-Unit Google Brand Architecture & Island Geocoding

Continuous setup and maintenance of verified Google listings for both Awoyaya and Lagos Island under a single corporate umbrella, channeling high-intent corporate and trader searches directly to your rooms.

PILLAR 03

24/7 AI WhatsApp Concierge & Channel Price Synchronization

An automated booking desk that instantly confirms direct reservations at your true rates (N18,000 - N25,000), while ongoing channel management overrides distorted N237k aggregator glitches.

⚠ COMMERCIAL NOTICE: DIAGNOSTIC SUMMARY VS FULL IMPLEMENTATION

This executive brief highlights structural commercial leaks and high-impact revenue gaps discovered during our audit. To protect our proprietary methodologies, technical solution code, backend patch scripts, and exact configuration recipes are withheld from this preview.

The complete Technical Remediation Blueprint, code patches, and step-by-step systems implementation are delivered exclusively during the Sales Cowboy implementation kickoff.

Prepared by: Sales Cowboy Hospitality Revenue Engineering Team
