COMMERCIAL PROPOSAL
Ref: SC-PROP-2026-CHURCH
Date: November 10, 2026
Validity: 30 Days

PRODUCT ARCHITECTURE & COMMERCIAL PROPOSAL

Integrated Church Management Suite & Member Engagement Platform

Cross-Platform Mobile App (Android & iOS via React Native / Expo) + Administrative Web Console with AI Sermon Assistant (Next.js)

1. EXECUTIVE SUMMARY & OVERVIEW

The goal is to design, develop, and deploy a church digital ecosystem combining administrative efficiency with deep congregational engagement.

The platform delivers a dedicated mobile app for church members (community feeds, live streaming, AI Bible assistant, and announcements) and a centralized administrative web console for ministry leadership, featuring an automated **AI Sermon Assistant** designed to help the Lead Pastor research scriptures, structure message outlines, and archive sermon notes effortlessly.

2. FUNCTIONAL SYSTEM SCOPE

Module 1: Pastor & Leadership Console

- **AI Sermon Preparation Assistant:** Topic and scripture research assistant powered by targeted OpenAI integration. Suggests cross-references, historical context, and outlines.
- **Integrated Sermon Archive:** Save, edit, tag, and export sermon notes for pulpit delivery.
- **Membership Directory & Analytics:** Centralized database with contact info, baptism status, home cells, and joining dates.
- **Birthday Detection Algorithm:** Generates daily celebrant rosters for leadership pastoral follow-up.
- **Broadcast & Live Service Manager:** Schedule targeted event announcements and link YouTube / Facebook Live video streams directly.

Module 2: Member Mobile Application

- **Member Onboarding & Digital ID:** Phone/email sign-up, profile photo, and personal details (birthday, department, cell group).
- **AI Bible & Devotional Hub:** Scripture reader (KJV and modern translations) paired with in-app AI Bible Study Assistant for topical queries.
- **Live Stream & Sermon Media Vault:** Integrated video player for live services without external ad interruptions, plus sermon audio/video archive.
- **Community & Fellowship Feed:** Interactive church wall for testimonies, prayer requests, and birthday celebrant well-wishes.
- **Push Notifications:** Instant alerts for service start reminders, flyers, and leadership pastoral broadcasts.

3. TECHNICAL ARCHITECTURE & INFRASTRUCTURE

LAYER	TECHNOLOGY	CORE PURPOSE
Member Mobile App	React Native (Expo) - Android & iOS	Native Android (.apk/.aab) and iOS (.ipa) builds providing smooth video streaming and offline Bible caching.
Leadership Web Console	Next.js 15 (React), Tailwind CSS	Desktop and tablet management portal for pastoral research, announcements, and member directories.
Backend API & AI Gateway	Node.js (NestJS) + OpenAI API	Secure backend interfacing with OpenAI API endpoints for the Sermon Assistant and Member AI Bible queries.
Database & Storage	PostgreSQL + Cloud Storage (Railway)	Structured records for members, announcements, and sermon media vaults.

4. ESTIMATED THIRD-PARTY OPERATIONAL COSTS

INFRASTRUCTURE / SERVICE	PURPOSE	ESTIMATED INITIAL COST
Cloud Server & DB (Railway)	Runs backend API, database, and background tasks	**$10.00 - $20.00 / month**
Media & File Storage	Stores sermon notes, flyers, and profile avatars	**Included in cloud tier / ~$5.00 / mo**
AI API Usage (OpenAI API)	Powers Sermon Assistant & AI Bible queries	**Pay-as-you-go (~$5.00 - $15.00 / mo)**
Push Notifications (FCM)	In-app announcements and birthday alerts	**$0.00 (Free unlimited tier)**
Custom Domain & SSL	Church domain (.org or .ng) with Cloudflare CDN	**~$15.00 - $25.00 / year**
Google Play & Apple Accounts	Store publishing fees (Google one-off, Apple annual)	**$25 one-time + $99 / year**

5. COMMERCIAL INVESTMENT & PAYMENT SCHEDULE

MILESTONE STAGE	SCOPE DELIVERABLES	BASELINE	FULL SCOPE
1. Mobilization Deposit (50%)	React Native setup, database schema design, and complete UI/UX interface layouts.	**₦375,000**	**₦425,000**
2. Functional Staging (30%)	Member registration, AI Bible, Sermon Assistant, live stream video player, and admin dashboard.	**₦225,000**	**₦255,000**
3. Production Handover (20%)	Android and iOS production builds, live web portal deployment, push testing, and handover.	**₦150,000**	**₦170,000**
Total Development Investment (4 to 5 Weeks)		**₦750,000**	**₦850,000**

6. POST-LAUNCH WARRANTY & SUPPORT
