PRODUCT ARCHITECTURE & COMMERCIAL PROPOSAL

Nationwide Cooperative Membership & Loan Application Platform

Cross-Platform Mobile Apps (Android & iOS via React Native / Expo) + Member & Executive Web Portal (Next.js)

1. EXECUTIVE SUMMARY & OBJECTIVE

To develop an accessible multi-platform digital system for a nationwide cooperative society. The platform enables prospective members across diverse state chapters to submit formal membership applications, upload required KYC credentials, and apply for cooperative loans directly from their smartphones or web browsers.

For cooperative executives, it provides a centralized portal to review applicants by state/chapter, enforce creditworthiness guidelines, and manage loan approvals and disbursements efficiently without paperwork delays.

2. FUNCTIONAL SYSTEM SCOPE

Module 1: Member Onboarding Desk

- **Nationwide Chapter Selection:** Applicants select state, local branch chapter, and member classification.
- **Digital KYC & Identity Profiling:** Full personal details, government ID upload, passport photograph, utility proof of address, and next-of-kin records.
- **Fee & Share Capital Checkout:** Automated registration dues and share capital payment collection via Paystack / Monnify.
- **Live Application Tracker:** Real-time status tracker (Submitted, Under Review, Approved, Action Required).

Module 2: Loan Engine & Assessment

- **Dynamic Loan Product Catalog:** Configurable products (Soft Loans, Business Expansion, Emergency, Asset Acquisition) with interest rates and tenors.
- **Interactive Loan Calculator:** Real-time breakdown of monthly principal, interest, and total repayment obligations.
- **Guarantor Nomination:** Nominate registered co-members as loan guarantors with in-app confirmation prompts.
- **Repayment Schedule Ledger:** Active loan statements, upcoming due dates, and repayment histories.

Module 3: Executive Administration & State Chapter Console (Web)

- **Multi-State Filtering:** Review membership applications and loan requests grouped by state, branch, or nationwide aggregate.
- **Loan Underwriting Desk:** Inspect savings histories, guarantor compliance, and multi-tier approval actions (Chapter Lead → State Exco → Central Sign-off).
- **Audit Accounting & Export:** One-click financial statement generation and data export (CSV/Excel) for executive board meetings.
