PRODUCT ARCHITECTURE & COMMERCIAL PROPOSAL

Digital Media, Culture & Sports Engagement Platform

Cross-Platform Mobile Application (Android & iOS via React Native) + Administrative Operations Console (Next.js)

1. EXECUTIVE SUMMARY & OVERVIEW

Culture, music, and sports represent high-engagement digital verticals that require clean user experience, real-time media/content delivery, and low-latency interaction.

Because proprietary platforms in this space range from curated cultural media feeds to talent marketplaces, ticketed live events, and fan engagement hubs, this proposal establishes our modular architecture options, recommended tech stack, and tiered investment frameworks to define your exact project scope.

2. MODULAR ARCHITECTURE OPTIONS

Track A: Media, Content & Community

- **Digital Media Engine:** High-performance streaming for audio tracks, video highlights, and cultural podcasts.
- **Creator Profiles:** Dedicated portals for artists and curators to manage media submissions.
- **Community Interaction:** In-app likes, comments, social sharing, and community engagement feeds.

Track B: Events, Venues & Fan Engagement

- **Event Calendars:** Interactive schedules for cultural showcases, tours, and sports tournaments.
- **Digital Ticketing:** In-app ticket booking, dynamic QR code generation for gate entry, and receipts.
- **Fan Voting & Polling:** Interactive fan polls, award voting, and match prediction contests.

Track C: Marketplace & Monetization

- **Talent Profiles:** Verified athlete/artist rosters, statistics, portfolios, and scouting inquiry channels.
- **Merchandise Storefront:** Built-in ecommerce for kits, cultural merchandise, and creator products.
- **Integrated Payments:** Multi-channel payment checkout (Paystack, cards, bank transfers).

Track D: Master Admin & Analytics

- **Content Publishing Desk:** Review, schedule, and approve user-generated and proprietary content.
- **User & Role Permissions:** Manage fan tiers, verified creator badges, and staff accounts.
- **Revenue & Traffic Analytics:** Real-time tracking of active users (DAU), engagement, and gross revenue.

3. RECOMMENDED TECHNICAL STACK
